VOL. XIX

RICHMOND, CALIFORNIA, FRIDAY, DECEMBER 22, 1922

No. 51

## President Harding May Appeal to People

### Would Make It "Dry" Day Christmas and New Year's

Washington, Dec. 22.—It is said that President Harding may appeal to the people to assist in enforcing the dry law.

As Christmas draws near, every effort is being made by prohibition forces throughout the country to dry up the flood of holiday liquors at their sources. A nation-wide campaign will be made by the federal prohibition bureau to make this one of the "driest" yuletides in history.

### Millions in Fines Collected by U. S.

Washington, Dec. 22.—During the fiscal year ending June 30, 1922, the Department of Justice collected \$3,531,593 in criminal cases growing out of the prosecutions of the violations of the prohibition law and the food and drug acts.

### Uncle Sam Union Man

Washington, Dec. 22.—On and after January 13, 1923, local postmasters are authorized to grant Saturday half-holidays to all of their employees wherever it is possible without injury to the local postal service. This order applies throughout the year. Heretofore Saturday half-holidays have been granted only during the summer season and in many cities it was not granted at all.

### Mail Robbers Take Lay-Off

Washington, Dec. 22.—The realization that some 40,000 revolvers and 300 shotguns are now in the hands of postal employees who have been trained to use them accurately and instructed to use them when needed, is considered the real reason of decrease in mail robberies.

### Stamp Sales Enormous

Washington, Dec. 22.—According to data issued by the Post Office department, the sale of postage stamps in the United States averages \$3.92 for every man, woman and child. The average of all postal revenues, which includes all sources in addition to postage, amounts to \$4.41.

### John D. Not in Standard Oil Co.

Washington, Dec. 22.—President Walter C. Teague of the Standard Oil Co., in presenting an infinite array of facts and figures to the senate, it developed that John D. Rockefeller Sr., is not interested in the company, not owning a single share of stock.

However, John D. Jr., is the largest individual owner of common stock in the corporation.

The late William Rockefeller owned only 7200 shares of Standard stock at the time of his death.

**It Wasn't a Ford!**

Al Schneider, local tailor, while at the theatre in Oakland Wednesday night lost his Chevrolet. He forgot to take it in the playhouse with him, and when he came out it was gone.

It was in THE TERMINAL.

### Re-Appportionment Is Interesting Many Politicians

Washington, Dec. 22.—The reapportionment of congressional districts in California will cause a flurry in the next legislature of California, if Congressman Mondell succeeds in forcing reapportionment through at this session.

Before the California legislature can take action, congress must decide the number of representatives California may have. It is said the state will be entitled to four more representatives, that Contra Costa may be tacked on to Alameda.

### Road Building Was Active in 1922

Washington, Dec. 22.—According to the Bureau of Public Roads, the fiscal year 1922 broke all records for federal road building. During that period over 10,000 miles of federal-aid roads were constructed and more than an equal mileage of public highways were constructed without federal aid.

Texas has the largest mileage of federal-aid constructed roads. South Dakota stands second, Oklahoma third, Missouri fourth and Minnesota fifth.

### Europe Still Behind in Food Production

Washington, Dec. 22.—According to the foodstuffs division of the department of commerce, Europe is still far behind her normal production of food products. Before the war Europe produced 95 per cent of her needed requirements of food stuffs. During the war this decreased to a small percentage of her actual needs.

South America and Australia are producing about the same amount they did prior to the war. North America is the only section of the globe which is producing more food products than it did in pre-war days.

### Watch Out For New Five-Dollar Bills

Denver, Colo., Dec. 22.—A reward of \$10,000 has been offered by the city and county for the capture, dead or alive, of the bandits who shot and killed a guard of the Federal Reserve Bank and escaped with \$200,000 in currency in front of the Denver mint.

The bank asks that a sharp lookout be kept for the new five-dollar bills stolen, the serial numbers of which run from 20852001 to 20876000.

### Our Dave Is a Hard One to Vanquish

New York, Dec. 22.—Dave Shade, top notch boxer, is after the welterweight championship. So far his competitors do most of their fighting with their jawbone.

Shade is a Contra Costa county product, and has cleaned up \$70,000 in the last eighteen months with his two "fistic dukes," which he employs to good advantage.

Clemenceau tells us he wants America to go over and interfere in European affairs. He does not know just what he wants it to do, but it should do something.

THE TERMINAL, Richmond's industrial newspaper.

### Cheap Land Forever Gone in United States

Washington, Dec. 22.—The frontiers in America have vanished. The era of cheap lands will never return. From now on the price of land will be increased because of the natural scarcity of tillable areas and the increasing cost of cultivating land which is tillable.

According to the United States Department of Agriculture, there are 40,000,000 acres of absolute desert; 270,000,000 acres of forest land and 600,000,000 acres of land which is semi-arid and suitable only for grazing.

Those who wish new lands can find plenty of it in cut-over sections at prices ranging from \$10 to \$50 per acre. But it would cost all the way from \$35 to \$200 per acre to clear the land and place it ready for cultivation. There are 91,000,000 acres of undrained land that can be purchased cheaply but the cost of drainage is almost prohibitive.

### J. Rio Baker Funeral

The funeral of County Treasurer J. Rio Baker will be held at noon today at Masonic Temple, Martinez. The funeral will be conducted by the Masonic Lodge of Martinez, cremation at California crematory, Oakland.

### "Lightning Rods" Up

A number of candidates for the office of county treasurer, made vacant by the passing of J. Rio Baker, are announced informally. The board of supervisors will hold a special meeting tomorrow at 11 o'clock a. m. when the appointment will be made.

Among those mentioned are the names of H. A. Johnston, Charlie Rihn, Jack Belshaw, James F. Hoey, Ralph Harrison and others.

### GOING WAY OF THE BUFFALO

Vast Herds of Wild Game That Once Roamed South Africa Veldt Are Disappearing.

South Africa is no longer the sportsman's paradise. The great herds of game that roamed the veldt have been decimated to the verge of extinction. Because of this, Dr. William T. Hornaday, chief crusader for the protection of wild life in America, has espoused the cause of another continent, and is pleading for more intelligent game laws in the land where Roosevelt shot his lion.

Unless such laws intervene, he declares, the day is soon to come when the last of several beautiful species will fall prey to man. And the last of uglier but most interesting ones, as the white rhinoceros.

One cannot repress a sigh at such a thought. America witnessed the passing of the bison, saw the last passenger pigeon in migration, and even now regards the dwindling prong-horn herd. The disappearance of game is a penalty of settlement, for obviously the same areas will not give food and shelter to man and the beasts. What has happened in America, much as we regret to admit it, must happen on the veldt.

In spite of all that Doctor Hornaday and his colleagues may say or do, it is the natural law, against which enacted statutes cannot hope to strive.

—Baltimore American.

"Can't I sell you one of these pier glasses, they make a fine addition to any home?" inquired the salesman of the German who was spending some of his newly acquired wealth.

"Peer glasses?" exclaimed the German, "vat for I vant peer glasses ven I no longer can get dat peer! Lieber Himmel! Vat a question!"

—Cincinnati Enquirer.

Have it printed at The Terminal, the oldest newspaper in Richmond.

### Organized Labor Will Ask Many Leading Questions

Contra Costa building trades council has adopted a novel plan to sound out the merchants of Richmond in regard to their "sympathies and opinions" of organized labor; whether labor has the same rights to organize as capital; and if convict or open-shop manufactured merchandise produced by derelicts and incompetents should be sold from counters of 100 per cent Americans in competition to the man or woman who is striving to improve the conditions of humanity by advocating fair and equitable rights for the toilers and the producers of all wealth.

The plan is to send out questionnaires, "feelers," as it were. The answers will be awaited with interest, especially from those who have control of municipal and other work where large numbers of skilled and unskilled are employed.

### Make It Light For the Mail Clerks

In mailing Christmas and New Year cards, use the standard envelope. The large envelopes will not go through the machines, and must be cancelled by hand. This makes additional work for the clerks. A cancelling machine will cancel 50,000 an hour, quite a saving in labor compared with the hand stamp.

### FRENCHMAN WAS TOO LUCKY

Andre Ardison, Had to Disguise Himself to Get Into Any of the Gambling Casinos.

A Paris dispatch to the New York World says Andre Ardison, the "king of card sharps," who, after having made three fortunes on the card tables, committed suicide at Toulon because he fell into poverty owing to unfortunate stock exchange operations, is said by the French police to have owed much of his success to his skill in disguising himself.

He was well known to the anti-gambling detectives and to the private detectives of the big casinos, but though as Andre Ardison he was refused admittance to any club or casino, he always succeeded by his skill in making himself up in going to gamble wherever he wished.

One day an elderly man of aristocratic appearance was wheeled in a chair to the casino at a fashionable watering place.

His name was quickly whispered round as that of a wealthy French nobleman who had a country house in the neighborhood.

He was carried by two footmen to the table and before the night was over he had won \$25,000. It was only Ardison in one of his many disguises.

On another occasion he played for a week on the Riviera disguised as an Indian prince and, after first losing heavily, went away with about \$50,000 in winnings.

### CEMENT IN 1919

The war years were marked by declines in the output of hydraulic cement, but 1919 showed good gains both in production and shipments. Production in Portland cement increased 14 per cent in quantity and 21 per cent in value, and shipments from the mills exceeded production. The quantity was 13,450,153 long tons and the price per ton \$10.19. The plants engaged in this manufacture numbered 111 and per capita consumption was about 77 barrel.

### DRUG USING ON INCREASE

There has been an increase of 10 per cent in the number of drug addicts admitted to Sing Sing in the last fiscal year.

It was in THE TERMINAL.

### Five Cent Car Fares in Detroit Add to Equipment

Detroit, Dec. 22.—Detroit, like San Francisco, is making the municipal street car lines pay a profit, as the large order for steel cars would indicate. Two hundred of the "Peter Witt" type of steel cars have been ordered by the city department street railways of Detroit, a system said to be efficient in every detail, which delivers excellent service for a jitney or 5-cent fare.

### "BROADWAY BROQUE"

An English writer says: "There seems to doubt that the invasion of American visitors this summer is the 'biggest ever.' Down at Hampton court recently I encountered them in dozens. Tortoise shell rimmed spectacles, a camera and the inevitable guide book were the unmistakable tokens of the tourist; while the state apartments and the picture galleries were buzzing with the brogue of Broadway."

### American Youth Should Be Taught Scientific Use of the Ballot

(Continued)

The editor of the Argonaut in the issue of Dec. 9th, shooting as is his costume from the hip, unintentionally wings three out of five of the city councilmen of Berkeley. He charges that a great number of the pupils of U.C. "The student body, young, ardent, its interest largely immersed in football, properly impressionable because the impressionable age is the proper one for education, but also dangerously impressionable under influences at all perverse, was canvassed for the names of 'voters' on a petition."

He then argues that three of the five councilmen were influenced in their vote by the directly or implied threats of the opposition of these "voters."

It is not at all likely that those three gentlemen were badly frightened by such threats on the part of a bunch of boys, nine-tenths of whom reside far from Berkeley and who never will cast a vote within her precincts.

Outside of this, the Argonaut's apprehension that the young men of the University were corrupted or their morale was impaired by signing the petition is hardly well founded. In sober fact, the boys had the right to say quite frankly that they would not support by their votes those city councilmen who chanced to deny their petition.

That threat, spoken or unspoken, is ever in the mind of each official from dog-catcher up to the president of the republic.

Every mother's son of them has his ear to the ground, anxious as to the effect which his vote on this or that question is going to have on his constituency. If he determines that a certain action will discredit him no patriotic duty in the premises can force him to disregard the home sentiment.

The right to protest by vote is the only vestige of democratic rule that is left to the American citizen. With the Constitution torn into shreds, with government by committees at the rudder, the old ship is plunging forward as a well high pilotless and without chartered course as she has ever been.

California's youthful voters can not be too soon or too thoroughly taught the scientific use of the ballot. It is to be during a life of good citizenship a weapon not only of defense, but also of effective offense.

It was in THE TERMINAL.

## Richmond Activities; News of the Week

### East Bay Water Co. to Fight Berkeley License

Berkeley, Dec. 22.—It is announced by the East Bay Water Co. that the company will fight to the supreme court, if necessary, the provision in the proposed licensing ordinance which would force the water company to pay to the city a fee of two per cent of its gross income.

At present the city receives a \$300 tax from the water company, and with the two per cent plan in effect the city would have a take-off of \$10,000.

### DEVICE FOR DRAFTSMEN

For draftsmen an inventor has combined a protractor, compass rule, for all angles and a small T-square in a single device.

### HOLIDAY CAPSULES

Now—all together! A merry Christmas and then A Happy New Year.

If you don't feel like making this declaration, do the best you can.

Pay cash for all your Christmas presents, including gasoline.

If you are not financially equal to a Christmas turkey, compromise on a duck or a chicken.

Remember, the governor-elect has not yet made his appointments, but is thinking, seriously.

Governor-Elect Richardson, like Cleveland, has coined a new word. It is "Squandermania." He made this new one fit in one of his droll sentences which ended with "political parasites."

Here is another one: "I am going to turn the rascals out and look over the remainder carefully."

There is a pretty sure guess going around that "lightning" will strike in two places—and will hit "Jimmy" Ryan and Harvey Toy.

Whether Harvey will "Toy" with politics in regard to the mayoralty has not been definitely decided. He is urgently needed on the Victory highway project.

No wonder there is alarm in the job-holders camp. The caustic remarks of Governor Richardson at the St. Francis hotel banquet Wednesday night revealed to many that the new governor of California means business, and that he will be right on the job and clip twelve millions off the budget.

It will be a merry Christmas for some—while others will look over their political road maps.

### Harvey M. Toy Reception

The reception given to Harvey M. Toy in the Colonial ball room of the St. Francis hotel, S. F., Wednesday night, where hundreds gathered to pay their respects to this excellent Californian, was a most successful and enjoyable affair, and proved that it does not require wines nor liquor to inspire enthusiasm in a gathering of this character; to create sociability and good fellowship. "White wine," cool and refreshing, filled each glass—pure, unadulterated ice-water, the "best drink ever invented," with no after effects.

### In Doubt as to How the Victims Were Killed

County Coroner Donnelly has requested the board of supervisors to investigate the cause of the deaths of Mr. and Mrs. George Montgomery, who were recently electrocuted in Pittsburg. Sheriff Veale and District Attorney Tinning have been instructed by the board to secure the facts in regard to the tragedy.

### Two Thousand Dollars Settles Wife's Claim

Under an order of Superior Judge R. H. Latimer Mrs. E. Maire Genzel, of Richmond, is permitted to accept an offer of \$2000 from the Southern Pacific settling an alleged claim she has against the railroad for the death of her husband, Charles Genzel, killed recently in a railroad accident near Bakersfield.

### Schools Close Today

The Richmond schools close today for the annual two weeks Christmas and New Year vacation. The schools will reopen January 3.

A. H. Campbell, superintendent of the California Cap Co., is preparing to build on McDonald avenue and Blossom street, opposite the new Winers block. Plans are being drawn by a local architect.

Frank Merriam of Los Angeles was a Richmond visitor yesterday.

### Automobile Hits Signal Pole

Ernest Francard of 2628 Union street, Oakland, with an auto load of young folks, came near staging a bad wreck Saturday night at Main and San Pablo when he turned the corner at the bank to go east on Main. It was raining, and the windshield was none too transparent, nor was Main street illuminated sufficiently for the driver to avoid colliding with the monster iron signal pole of the S. P.'s.

The result was, the right front wheel of the big auto was torn nearly off and the axle bent, headlights broken and the car otherwise damaged. Francard was driving slow, or there might have been a serious accident.

The S. P. should give this black iron nuts which centers Main street, a few coats of white paint. It would probably be a life-saver. This obstruction was hit by another machine some time ago and both automobiles and signal mast were badly damaged.

### Benefit Dance For Striking Shopmen

There will be an all night dance tomorrow (Saturday) night at San Pablo in Maple hall, given by the federated shop crafts, benefit striking shopmen. Sturm's orchestra is to furnish the music. J. P. Reeves is chairman of the committee.

### New Assistant

County Recorder Michael Hurley has a new assistant in his office. A baby boy arrived at his home Thursday, December 14th, but has not reported for duty up to the time of "going to press."

## Italy's Black Shirts Salute the Unknown Hero

The Fascisti at the salute on their knees while a wreath is being placed on the Unknown Warrior's grave in Rome. The Fascisti have revived the old salute of the Roman legions.

## Cut Highway Across Jungle

First Road to the North Coast  
Runs Through Santo Domingo Republic.

## OPENS UP RICH TERRITORY

Cuts Off From Ten to Twelve Days of  
Long and Tortuous Journey From  
San Domingo City to  
New York.

New York.—For the first time since Christopher Columbus landed on the island of Haiti a road has been opened in the Dominican republic from Santo Domingo on the south to Puerto Plata on the northern side of the island, thus connecting the two principal seaports of the republic and opening to cultivation some of the richest agricultural lands on the island. Incidentally the new highway cuts off from ten to twelve days of the long and tortuous journey from Santo Domingo City to New York.

American marines, in the times when they were not busy maintaining order in the disturbed republic, have built this highway, which holds out rich promise for the future development of the island. About 150 miles long, it puts Puerto Plata on the north and Santo Domingo City on the south in close touch with coastwise shipping on both the Atlantic and Caribbean. Freight and passenger traffic from Santo Domingo City, on the Caribbean, which heretofore had to be carried around the south, east and northern ends of the island to Puerto Plata before going north, a journey of from ten to twelve days, may now in a few hours proceed over the new road to Puerto Plata for shipment.

Columbus Church Stands.  
When Columbus landed on the site of Santo Domingo City in 1500 he founded the church of San Nikola, which is still in existence. Now the missionaries of the Episcopal church in the Dominican republic, in commemoration of the completion of the new highway, are establishing another church at Puerto Plata. Land has been secured and in a few months the new edifice will be dedicated by way of completing the link between the two sections of the republic.

Under the Rt. Rev. Charles B. Colmore, D. D., Episcopal missionary bishop of Porto Rico and the Dominican republic, Archbishop William

Wyllie and his wife have been the leaders in the movement to establish the new church, and Mrs. Wyllie enjoys the distinction of being the first woman to make the journey over the new highway from Santo Domingo City to Puerto Plata. Mrs. Wyllie, who has just passed through New York on her way back to Dominica, having made the journey from the island to Portland, Ore., and back to attend the Episcopal general convention, is one of the busiest individuals in the little West Indian republic. In addition to her missionary duties, she manages the United States government hospital in Dominica and, in a manner of speaking, has presided as master of ceremonies at the birth of all the army children who have been born in Dominica since the beginning of the American occupation. She was the only nurse on the island when the influenza epidemic broke there and has endeared herself to the entire population, native and foreign alike, by her ministrations.

Pleats Ships to Harbor.  
Archdeacon Wyllie, her husband, is similarly busily employed, Doctor

Polish Innkeeper, 117,  
His 215 Descendants

Rybnik, Polish Upper Silesia.  
—Two hundred and fifteen children, grandchildren, great-grandchildren and great-great-grandchildren assembled at Kiella, near here, recently, to help Valentin Faluscha, an innkeeper, celebrate his one hundred and seventh birthday anniversary. Faluscha is said to be the oldest inhabitant of Silesia.

Wyllie is one of those who have carried practical experience with life into the missionary service. At one time in his career he was an engineer on a Scotch tramp ship in West Indian waters. He is credited with knowing more about the Dominican coast than any other man south of the Florida straits, and on frequent occasions when he is coasting about on missionary trips he is called from his bunk during the late and early watches to take the helm and guide the ship through dangerous reefs into port.

Japanese "Gray Matter" Light.  
The brains of the Japanese, both male and female, average less in weight than those of the Americans and English.

## HAITIEN GIRLS NOW ROLL 'EM ALSO

Short Skirts Also Long Fashion  
Among Island Belles

Away Back in 1815 the Peasant Woman  
Began to "Roll Her Own"—Possession of Shoes and Stockings Marks Social Standing.

Cape Haitien.—Haiti often has been referred to as a backward nation, but in dress the Haitian woman of the pre-dominant peasant class long anticipated the American flapper in two of her most distinctive traits. Short skirts and the trick of "rolling her own" were adopted here long before the flapper took them to her heart. Short skirts are a necessity to the woman who passes her days toiling in a garden or riding a burro. They were short in Haiti when Andrew Jackson was in the White House, and the style has not changed.

It was in 1915 that the peasant woman began to "roll her own." In that year the occupation forces of American marines and shore-leave parties of big-jackets brought a golden trail of American coin to the impoverished

land. Regiments and ships bought freely in the markets and the women reaped the benefit.  
Haiti is a country of castes, and the possession of shoes and stockings marks a decided social advantage for the peasant class. They invested their earnings in them, but drew the line at garters, and necessity taught them a substitute.

There is one distinctive feature of woman's dress in Haiti peasant circles, however, that will hardly find favor in the sophisticated eyes of the American flapper. Frequently one sees among the universal faded blue and white attire one of red, white and blue, with the three colors arranged in fantastic patterns of stripes and squares, usually topped by a bright red bandanna turban. A peasant woman thus arrayed, accustomed to carry burdens on her head from infancy, strides along in this gay costume with the carriage of a Greek goddess. She is a "penitente" who has broken one of the laws of the peasant code of conduct and her self-elected costume openly proclaims to her sisters that she has backslidden from their furious code and is paying the penalty by public penance.

BABOON HOLDS  
OLD MANSION

Mascot, Deserted by Bootleggers,  
Makes Night Foray and  
Attacks Boy.

## ROUTED BY POLICE DOG

Search Parties Hunt Marauder in Vain  
—Some Persons Have Seen Animal  
at Night, but Have Been Unable to Capture Him.

Babylon, L. I.—A baboon, believed to have been the mascot of seafaring bootleggers and left ashore after a rum-running expedition to Great South bay, has taken up its home in the abandoned house on what was formerly the estate of the late Cornelius Bergen, between Babylon and Lindenhurst. The nocturnal forays of the animal, which included an attack upon William, the fifteen-year-old son of Charles Ellinger, the caretaker who lives on the grounds, have aroused the countryside, and hunting parties have been organized in which agents of the Society for the Prevention of Cruelty to Animals have joined.

Unfrequented Place.  
The Bergen estate, which is now owned by Mrs. William E. Hawkins, comprises about 200 acres and lies between Old Country road and the shore of Great South bay. It is a lonely and unfrequented place, in the center of which is located the old Bergen home, a three-story building now falling into ruin.

Young William Ellinger went down to the creek in the dusk of falling night several days ago to look after muskrat traps, taking with him William Tell, a Belgian police dog. The boy was walking slowly along the side of the creek when he came suddenly upon the baboon, which apparently had just dropped from a limb of a tree. The boy shouted to frighten the animal away, but instead the baboon made for young Ellinger. It knocked him down with a sweep of one long arm and was tearing at his clothing when, in fright, the boy called to his dog. As William Tell came bounding up the baboon met the dog with a swing of its arm that sent William Tell flying back several feet. The dog returned in a jump and closed in. After a few moments of snarling and biting the baboon gave a screech of pain and fled into the underbrush.

Seen Several Times.  
Young Ellinger hurried home to report. He said he first thought it was a man, for the animal stood as tall as himself, and William is a big boy for his age. An investigation next day failed to disclose the baboon, but since then it has been seen several times. It

It Knocked Him Down.

was seen through the window of the old house moving about inside. Some hunters say they saw it at one of the upper windows. One man declares that as he approached the house he saw the animal climb out of a third-story window, seize the lightning rod and slide down to the ground. So quickly was this done and so surprised was the hunter that he could not get his gun to his shoulder before the baboon had rounded a corner of the house and was out of sight.

A hunting party from Babylon came out and tramped in vain for hours through the estate. At the request of Mrs. Hawkins, the agents of the Society for the Prevention of Cruelty to Animals took up the search, but so far without result.

Drowned by Fish He Spared.  
Olig Harbor, Wash.—While spending fish at Sunrise beach, near here, Albert Gardner, eighteen years old, appeared a devil fish that dragged him from his boat and drowned him.

Nearly fisherman rowed to Gardner's assistance but he was bent when taken from the water. Gardner made the mistake of fastening his line to his body instead of to the boat.

BOY  
SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

## HONOR ROOSEVELT'S MEMORY

On the anniversary of the birth of Theodore Roosevelt, October 27, scouts in every part of the country united in paying tribute to the memory of their chief scout citizen and his scoutlike qualities of virility, integrity, square dealing, public service and practical citizenship.

"The two thoughts animating the demonstrations," says James E. West, chief scout executive, "were first, to do honor and to keep alive the memory of a great American and good scout, who kept the scout oath and law himself; and, secondly, to inspire scouts and the public generally with a desire to be better citizens, remembering 'such as these have lived and died.'"

Ceremonies took the form of special troop exercises, public gatherings, speeches, rallies, tree plantings and dedications in school yards, community centers, and on highways.

One of the most impressive ceremonies was the third annual pilgrimage to Roosevelt's grave at Oyster Bay, N. Y., attended by a thousand scouts of Greater New York and vicinity under leadership of National Scout Commissioner Daniel Carter Beard.

The plan to erect at Oyster Bay an exact reproduction of the cabin occupied by the colonel when he lived a ranchman's life in the Bad Lands of North Dakota, has received favorable consideration from local and national officials. Logs for the cabin, according to the plan, will be contributed by troops from every state in the Union representing the 550,000 members in every city and nearly every town and hamlet in the Union, all dedicated to the same outdoor life, study, manliness of character and virile citizenship associated with the ideal scout and citizen, Theodore Roosevelt.

## THE ROAD TO KNOWLEDGE

How do you pack a blanket roll that's fit for a forest tramp?  
How do you build a crackling fire when the dog is ragging in on the air?  
How do you stretch a shelter tent and how do you make your camp?  
How do you cook your bacon and spuds so none of the stuff will burn?  
How do you know the things to take and the things you must leave behind?  
How do you make a bed of boughs that's comfortably designed?  
How do you know the trail to take, and the way that you should return?  
Go to the Scouts, go to the Scouts, go to the Scouts—and Learn!

Where are the streams that teem with fish, and how do you travel there?  
Which is the trail to the piney woods where fragrance is on the air?  
How can you keep to a faint, blazed trail as your only thoroughfare?  
What is the secret of your craft and where did you get your key?  
How do you pilot a slim canoe through rapids that seeth and toss?  
How do you pick the safest ford when there is a stream to cross?  
How can you always find yourself wherever you chance to be?  
Follow the Scouts, follow the Scouts, follow the Scouts—and See!

What did you do to get so brown, so husky and strong and straight?  
Where did you learn that easy walk, that breezy and swinging gait?  
And where did you get that fearless glance that challenges Chance or Fate?  
And why do you grin and blush a bit, yet hold your head so high?  
Why do you spring so readily to answer a call for aid?  
And why do you tackle each job you find as if you had learned the trade?  
And why do you view this big round world with a confident, cheerful eye?  
I am a Scout—and a First-Class Scout, and that is the reason why!  
—Barton Brasley in Boy's Life.

## A SCOUT IS KIND

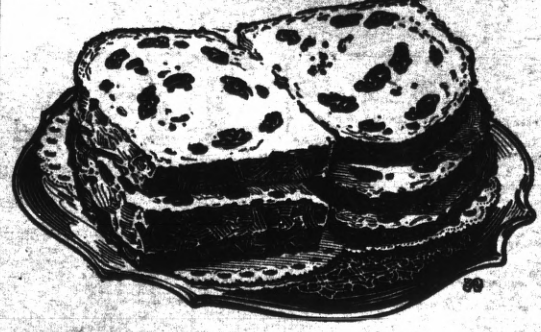

A little boy who was flying a kite in a big wind lost control of it in a cross current. The kite came down in a broad sweep, landing in the top of a high tree. The youngster was too small to climb the tree, so he broke the string as near to the kite as possible and went home sadly with only the ball of string in his possession, his heart broken because of the loss of his treasure. On the way home he met a boy scout who, with characteristic observation noticed the little boy's dejected look, and asked him what was the matter. When told of the tragedy the scout asked to be shown the tree, which he promptly climbed, released the kite and restored it into the hands of its delighted owner. He might have behaved in precisely the same fashion if he had not been a scout but, being a scout, he just naturally couldn't have done otherwise.

## SEES GOOD TURN

From the Trenton (N. J.) Times, in its daily "Seen this Morning" column: "Two boy scouts carrying basket of clothes for colored washerwoman."

## PRESENT COMMUNITY PARK

Scouts find opportunity everywhere to perform their daily good turns, plebe grounds not excepted. When scouts of Zillah, Wash., presented to the community 12 "Scout Park" acres for a picnic ground, they rolled 305 "good turns" all into one, for it had taken the boys, with the aid of officials and friends, one year to prepare and clear the grounds; construct equipment, make trails and bridges, lay water mains, dig ditches and pipe city water to the park.

Why Bake At Home  
when you can buy bread like it,  
ready baked?

COUNT the raisins—at least eight big, plump, tender fruit-meats to the slice.

Taste it—see how the raisin flavor permeates the bread.

No need to bake at home when we've arranged with bakers in almost every town and city to bake this full-flavored raisin bread.

Just phone and they'll deliver it—all ready to surprise the family tonight.

It comes from master bakers' modern ovens in your city. And it's made with Sun-Maid Raisins.

That's another reason for its superiority. A rare combination of nutritious cereal and fruit—both good and good for you, so you should serve it at least twice a week.

Use Sun-Maid Raisins also in puddings, cakes and cookies. You may be offered other brands that you know less well than Sun-Maid, but the kind you know is good. In fact, therefore, on Sun-Maid brand. They cost no more than ordinary raisins.

Mail coupon for free book of tested Sun-Maid recipes.

## 10c Gives New Life to Old Stockings

Putnam Fadeless Dyes—dyes or tints as you wish

All She Could Think Of.

One evening, at an entertainment, the mother of a boy in an algebra class I taught turned to me and said, "Well, how is the boy getting along?" It was my home community and it happened that I was proud of a baby nephew then three weeks old, and I thought, of course, that she referred to him.

I answered, "Just fine; he gained a pound last week."  
It didn't take me long to see that she referred to the progress of her son in algebra.

The Cuticura Toilet Trio.  
Having cleared your skin keep it clear by making Cuticura your every-day toilet preparations. The Soap to cleanse and purify, the Ointment to soothe and heal, the Talcum to powder and perfume. No toilet table is complete without them.—Advertisement.

Refrigerator Cars in Use.  
More than 150,000 refrigerator cars are in use on the railways of the United States and Canada.

A girl without cheek has her kisses handed to her.

Nothing in His Mind.  
"What instrument would you rather play, if you belonged to an orchestra?"  
"The piccolo."

But that isn't considered much of an instrument.

"That's why it appeals to me. When a piccolo player gets through his work he drops his piccolo into his pocket and right away he looks to me like a man who hasn't a care in the world."—Birmingham Age-Herald.

No Dispute.  
"What is this, dearie?"  
"I intended it for a marble cake."  
"I believe it is."

Potato salad that has fallen from grace can be as excruciating as an oyster that has.

## "Lots for Your Money Brands" Should Not Tempt You—Use

## CALUMET

The Economy BAKING POWDER

That's What Millions of Housewives Do

—They know that Good Baking Powder can't be sold for less—that "more for the money" means bake-day failures, waste of time and money—that Calumet means economy.

The sales of Calumet are over 150% greater than that of any other baking powder.

THE WORLD'S GREATEST BAKING POWDER

TEST BY TEST

## SCIENCE BARES A GREAT SECRET

Cause of Gravitation Is Discovered by Professor See.

Problem Has Baffled Scientists Since Newton Established Law of Gravitation 235 Years Ago—Result of Long Study.

San Francisco, Cal.—The cause of gravitation, which has baffled scientists since Newton established the law of gravitation 235 years ago, has been discovered by Prof. T. J. J. See, government astronomer at Mare Island, according to an announcement made by Professor See in an address before the California Academy of Sciences.

Professor See announced he had discovered the cause of magnetism and of universal gravitation, and he said he was also able to prove that the two magnetic poles were at unequal depths in the earth.

In completion of 40 years of re-

search on magnetism and gravitation, Professor See declared that the cause of magnetism lay in the action of ether waves considerably longer than those of light and heat, and asserted there was a connection between magnetism and universal gravitation which definitely proved that gravitation was also due to similar waves in the ether traveling across the heavenly spaces with the velocity of light.

The processes of attraction under the wave-action of magnetism and of gravitation are totally invisible, said Professor See, whose explanation of his discovery was substantially as follows:

"The lines of force around a magnet were first studied by the celebrated English natural philosopher Faraday nearly a century ago; and while Faraday believed that magnetic inductive action might be conveyed along these curved lines of force, he could not prove it. Action of physical forces in straight lines has, therefore, contin-

ued to be adopted by all authorities, including Gauss himself, author of the celebrated "Mathematical Theory of the Earth's Magnetism," 1838.

But now, 84 years later than Gauss, Professor See proves that the magnetic lines of force are vertical filaments in ether, and thus are the rotation axis of the whole body of waves proceeding from a magnet.

Professor See submitted experimental demonstrations of this wave theory of magnetism, showing that when a small magnet is suspended by a thread near a larger one the small magnet is pulled bodily toward the nearest pole of the large magnet.

Sauerkraut's Pal Hard Hit.

Washington.—High prices for hot dogs have hit Germany, the Commerce department has been advised by Consul John A. Scott at Dresden. The consumer places the blame on the butchers, he says, while the latter condemn the slaughter houses. Beef, mutton and pork have risen more than 100 percent in the last sixty days, while slaughter-house fees have risen 200 per cent.

## ELBE PIKATES SEIZE SCHOONER

Inexperienced, They Run the Ship  
Aground and Are Caught by  
the Police.

Hamburg.—A case of real piracy, in which a large schooner, the Barkin, was seized, occurred in the lower Elbe. A party of pirates boarded the vessel, and finding only the captain and a few members of the crew there, took possession at the point of pistols. The

vessel was headed for the sea. The captain managed to escape and the inexperienced of the pirates caused them to run the vessel aground, where it was overtaken and the pirates placed under arrest.

Shines With a Borrowed Light.  
If a man doesn't amount to anything himself he boasts of his ancestors.  
Boston Evening Transcript.

Gets Divorce, Then Kisses Lawyer.  
Chicago.—Mrs. Grace Freeman, an actress, was so pleased at obtaining a divorce from her husband in court at Chicago that she ran to her attorney, Philip Davis, threw her arms around his neck and kissed him a resounding smack on the lips, right in front of the judge and everybody.

**WHY DRUGGISTS RECOMMEND SWAMP-ROOT**

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder medicine.

It is a physician's prescription.

Swamp-Root is a strengthening medicine. It helps the kidneys, liver and bladder do the work nature intended they should do.

Swamp-Root has stood the test of years. It is sold by all druggists on its merit and it should help you. No other kidney medicine has so many friends.

Be sure to get Swamp-Root and start treatment at once.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer &amp; Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Advertisement.

The Effect on Him.

"Uh-well, sah," rejoined old Brother Buckaroo, "twus endurin' of de revival at Ebenezer chapel. De house was rockin' wid de halleluyahs, and de brands snatched fum de burnin', and Pabson Bagster was callin' on de one and dat one to testify 'bout de blessin' de dat had 'scended upon him. He 'proached po' Brudder Bobshy, dat had been 'flicted wid de rheumatiz twell he was bent up like a question-mark."

"Tell us, muh brudder, how'd de pabson, 'what de Lawd in his indefin'ite musky has done 'd to yo'?"

"Confound it! Kain't yo' see?" growled de mizabie man, twittin' round twell he could look up into de preacher's face. "He's d-n near ruint me!"—Kansas City Star.

Native.

"Niggah, what is yuh from?"

"Ah ain't from niggah. Ah live 'hyah."—Life.

After a boy has spent a year at college he resembles the picture in ready-made clothing advertisements.

**Uncommon Sense . . .**

By JOHN BLAKE

**YOUR TEMPER****MEN** harness rivers and make them

men. Some day they will con-

tinue the experiments begun by Benja-

min Franklin and harness lightning

itself. They have already harnessed

electricity in another form, to most

of the wagons of industry.

Energy, controlled, is tremendously

useful. Uncontrolled it is tremendously

destructive.

Temper is highly concentrated en-

ergy. Allowed to take its own course,

it is capable of doing infinite damage.

Controlled, kept in check, and di-

rected into useful channels, it is an

asset that can be turned into ready

money.

If you have a high temper it is proof

that you have energy. Lazy, languid

men never get angry or excited.

But your fits of anger, your explo-

sions of temper, are sheer waste of

the energy that is stored up in you.

They lose you your friends. They

destroy your judgment. They bring

about consequences which you cannot

foresee and from which you may never

recover.

Harness your temper as men har-

ness the energy that is stored in moun-

tains, torrents. Employ the "pep" that

now goes to waste when you fly off

your handle, in attacking your job.

If you have got to get excited, get

excited over your work. If you are

bound to get mad, get mad at your-

self for not accomplishing more than

you are accomplishing.

Nothing important is ever done with-

out energy. And if your energy is al-

lowed to run away, as does the uncon-

trolled stream, you will have none left

with which to do the great things

which you have planned to do.

Temper, kept within bounds, prop-

erly directed, will carry a man far on

his way to success and happiness.

Permitted to "blow up" it will keep

him in continual trouble, and land him

in the poor house if he is fortunate

enough to escape jail.

(Copyright by John Blake.)

**Has Anyone Laughed****At You Because —**

You Are Tactless? This al-

ways hurts, for the person that

is tactless is generally very kind

and sensitive and tactlessness is

often due to a lack of knowing

and also a swiftness of action

that gives you no time to think.

Don't suppose that you can

never learn to be tactful. Al-

though it is often a thing you

are born with, you can learn.

For example, when you are

laughed at you can realize that

the laughter is right, and that

will be the first step to a cure

all.

So

Your Get-away here is:

Dance the "hesitation" a little

often, before going into ac-

tion.

(© by McClure Newspaper Syndicate.)

**SCHOOL DAYS**

craving for sweets which is natural to

childhood.

Fresh preserves are quite different

from prepared with honey instead of

sugar. Quinces are especially deli-

cious when preserved with honey.

Served with whipped cream they make

the most delectable dessert.

Helen Maxwell

**Something to Think About**

By F. A. WALKER

**A SECRET SANCTUARY****IN EVERYBODY'S** heart, according

to the gaze of intimate friends,

there is a secret sanctuary to which

he or she retreats when the outside

world becomes irritating and over-

bearing.

You may call your sanctuary the

place of dreams, or the refuge of rest

and reflection, but whatever name you

may give it, there are times when you

like to retire to it and be alone with

your thoughts far from the tur-

bills and haunts of men.

It is in this retreat that the soul

finds its comfort, its better self and

its nobler faith.

It is here the beautiful flowers of

thought are watered and kept in the

sunlight, jealousy screened from in-

quisitive eyes, meddling tongues and

fingers.

You may retire to it in the mid-

night hour when the world is still or

when the storm is rattling the cas-

ement and the rain is beating against

the panes, but whenever you visit it

you find the tranquility you crave and

the new strength to help you carry

your heavy burdens.

Courage, hope, ambition and resolu-

tion are nursed back to life in this

asylum and given a new meaning.

Fear of poverty, loneliness and even

disappointment in the failure of some

long-cherished plan, lose in this sacred

spot their uncouth forms and poison-

ous stings.

### Paint the Poles White

Following the "safety first" slogan, which is said to have originated with a railroad company, why not make it safer still. There are many crude obstructions along our streets and highways that are a menace to human life and the death toll taken runs into thousands.

If we must have the overhead entanglement of wires, and have poles to support them, why not have the poles and steel aerial supports painted white for at least 8 feet from the ground?

Hundreds of these poles are snapped off by automobiles and hundreds are killed in accidents by the unsightly obstructions which adorn the curbs and corners, many of them affecting property valuations and turning business centers away from convenient localities.

Iron or wood poles, whether they belong to corporations or private parties, should not be permitted in congested centers, nor in the center of streets or highways, where motor vehicles on dark or stormy nights are liable to collide with these obstructions. We have had about enough killings from carelessness. Why not "take an ounce of prevention?" Paint the poles white.

### Spread the Sunshine

When a bit of sunshine hits ye  
After passing of a cloud,  
When a fit of laughter hits ye  
An' yer spine is feelin' proud,  
Don't fergit to up and fling it  
At a soul that's feelin' blue,  
Fer the minit that ye sling it  
It's a boomerang to you.

—C. T.

### FLYING

All women will be interested to know that the first woman to give birth to a baby in an airplane is Mme. Georges Breyer of Lyons, France. Baby arrived while the plane, 6,000 feet above the Mediterranean, was rushing mother to the hospital.

This is exceptional now. Later it may be common. Future generations may live in flying houses. Impossible? The airplane of today, compared with future machines, is as crude as primitive man's first log canoe compared with giant ocean liners of modern times.

### WELL FIXED ON ANCESTORS

There is a controversy on in New York as to the possessor of the greatest number of living ancestors. The first to claim the honor was a Brooklyn boy with two living great-grandfathers. Then came a Bronx boy with two living grandmothers, two living grandfathers and two living great-grandmothers. The matter seemed to rest there, but now advances a Freeport (L. I.) boy with three great-grandfathers, two great-grandmothers, a father and a mother, all living and able to speak up for their entry. He is Robert Archer Levy, born June 18, 1920. The public is requested also to observe that this is a "blood" tree, no "steps" being included.
